Sridevi Manikandan

AI Engineer

LinkedIn: Sridevi Manikandan

Location: Chennai, Tamil Nadu

Date of birth: 09-Aug-2002

Number: +91-7402461566

Mail – shreemanikandan4@gmail.com

Technical Lead / AI Engineer with **3+ years** of experience building **scalable Generative AI systems** using LLMs, RAG, and multimodal AI across **AWS & Azure**. Proven ability to design **production-grade, high-scale AI platforms, optimize** cost-performance, and deliver **real-time intelligent systems**.

Work experience

zeb | Technical Lead *Chennai | May 2025 – April 2026*

- Architected and deployed **AI systems** using LLMs, RAG, and multimodal pipelines across AWS & Azure.
- Designed **distributed, event-driven architectures** (Lambda, SQS, ECS, AKS) handling real-time AI workloads.
- Led development of **intelligent document processing, AI chatbots, and automation platforms**.
- Integrated models (Claude, GPT-4, CLIP, YOLO) into **production systems with high reliability** with 95% accuracy.
- Collaborated with cross-functional teams to deliver **AI-driven business impact and automation at scale**.

zeb | AI/ML Engineer *Chennai | Dec 2023 – Jul 2025*

- Built and optimized **RAG pipelines on large datasets**, improving retrieval accuracy and response relevance.
- Developed **AI agents (Jira → Slack automation)** reducing manual effort and improving resolution speed.
- Designed **real-time AI systems** including voice-based evaluation using Whisper.
- Delivered **cost-efficient AI solutions** using open-source models (WhisperX), reducing cloud costs.
- Deployed **microservices (Docker, Kubernetes)** ensuring scalability and high availability.

Education

Amrita College of Engineering and Technology| B.E. Computer Science *Nagercoil | 2019 – 2023*

Actively participate in various technical events and activities, including internal hackathons, paper presentations, and being part of the MC team, and have maintained a **CGPA of 8.3**.

Skills

AI/ML: LLMs, RAG, NLP, Computer Vision, Multimodal AI
Frameworks: LangChain, Hugging Face, WhisperX, YOLO, CLIP
Cloud Services: AWS (Lambda, SQS, SageMaker, ECS, EKS, S3, Bedrock), Azure (AKS, OpenAI, Databricks)
Programming: Python, JavaScript, Fast API, React.js
Databases: PostgreSQL

Projects

Intelligent Document Processing – Built LLM-powered system for extracting and structuring technical data; enabled **AI-driven knowledge retrieval via chatbot**.
AI Card Recognition (CV + RAG) – Real-time **YOLO + CLIP pipeline** to identify objects from **huge dataset** with high accuracy.
Enterprise Chatbot (RAG) – Context-aware chatbot using Claude + embeddings, improving **knowledge accessibility**.
Automated Ticket Resolution – Built RAG-based Jira system with feedback loops, improving **resolution efficiency**.
Call Transcription (WhisperX) – Reduced costs by replacing managed services while maintaining performance.
